COLOR ENHANCING SEALER

CREATED FOR

HONED STONE,
BRICK, CONCRETE
SALTILLO AND
TERRA COTTA

EASY TO USE
Safe for Food
Prep Surfaces

MB-21

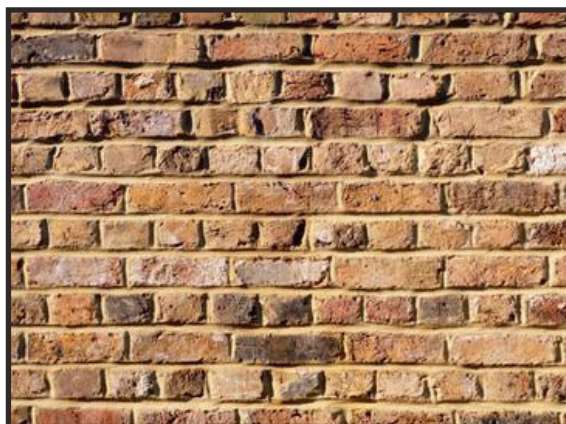

**WATER & OIL
RESISTANT**

MB-21 Enhance is a professional grade premium solvent based, VOC complaint formulation. MB-21 is an easy to use, clear, very low odor, nonflammable formula that was designed for homeowners and contractors a like. MB-21 is safe to use on food prep surfaces and not sensitive to most common household acidic substances. The result is permanent. MB-21 provides optimum sealing capabilities, protecting against oil and water based staining agents.

APPLICATION:

Honed stone, brick, concrete, Saltillo & Terra Cotta

Make sure the surface is thoroughly cleaned and free of debris. Wear rubber gloves and apply product liberally with a brush or clean rag to manageable areas whether on floors or countertops. Let the product sit for 15 minutes, all the while keeping the surface wet. Then remove the excess product thoroughly from the surface. Buff the surface with soft rags or paper towels until dry to the touch. Than proceed to the next section overlapping the previous section and repeat the process. A minimum of two coats is suggested.

SPECIFICATIONS:

Appearance.....	Clear Liquid
Odor.....	Characteristic Odor
Specific Gravity.....	0.927
pH.....	N/A
Boiling Point.....	Near 212°F
Flash Point.....	155°F
Water Solubility in Water.....	Insoluble
